PART ONE: HOMEPAGE WELCOME TEXT

Welcome to the Christian Family of Bauchi State

Bauchi State is called the Pearl of Tourism, and it is also a pearl of promise for the Church. It is a land of about 49,000 square kilometres, with rolling savannah, the green hills of the Jos Plateau edge, warm springs, rivers and the famous Yankari Game Reserve. More than 50 ethnic groups live here, speaking many languages and keeping many traditions.

This is the home state of Sir Abubakar Tafawa Balewa, the first and only Prime Minister of Nigeria. It is a land where believers have prayed, taught, built schools and churches, and served their neighbours across generations.

The National APC Christian Leaders Forum of Nigeria, Bauchi State Chapter, exists so that the Christian voice in Bauchi is organised, informed, respected and counted. We are present in all 20 Local Government Areas, across three senatorial districts: Bauchi South, Bauchi Central and Bauchi North.

Scripture tells us to seek the peace and prosperity of the city where we live (Jeremiah 29:7), and that righteousness exalts a nation (Proverbs 14:34). Your ward, your church, your family and your vote all matter. Find your Local Government Area on this site, see who is standing with you, and register today.

Register. Be counted. Build Bauchi together.

Welcome line: Zaki, at the northern edge of our State. Every believer here has a place in our family.

PART SIX: NOTES FOR THE WEB DESIGNER

1. Give each LGA its own page with a fixed layout: welcome line, fact sheet (headquarters, senatorial district, number of wards, estimated Christian population), brief history, ward list, and a registration form with a ward dropdown.
2. Show every Christian population figure with the label "Estimated". This keeps the site honest and protects the organisation if anyone questions the numbers.
3. Use the ward names exactly as spelled above, including the slashes, because many wards combine two or more communities.

4. Group the 20 LGA pages under the three senatorial pages: Bauchi South, Bauchi Central and Bauchi North.
5. The history paragraphs for the smaller LGAs are short because I found little reliable written history. If you can get fuller local histories from your LGA coordinators or the traditional councils, add them.
